

NSA SECURES SPECIAL MIT PLANE

New Tech Show Featuring Amer. Engineers, Senioritas To Be Presented In March

On March 18 and 19 the annual Tech Show, "O Say Can You Si," will be presented at the Cambridge High and Latin School, Cambridge. According to James Berman '49, General Manager, a cast of thirty-five have been rehearsing the original music, lyrics, and book for the past three months.

It is the story of two American engineers who go to South America seeking employment and who find it fixing roulette wheels for a couple of crooked gamblers. They then become involved in a plot to overthrow the government. This exciting plot plus some senioritas add up to what the cast considers to be a very exciting and entertaining show.

The show will be directed by Robert P. Abelson, G. Alleen Howell will play the part of an American girl with Nathalie Foss as a luring seniorita. Andy Lang, '49, and Joe Gottlieb, '50, are the two American engineers. Mrs. Howell is also doing the choreography. The scenery has been designed and will be painted by Walter L. Hill, '50, and Walter I. Thompson, Jr., '51.

Twelve original numbers have been composed for the show. The music, which will be published by a large New York publishing firm, was written by William E. Katz, '48, and the lyrics by Art Van Stolk, '49. The Tectonians will furnish the music for the show.

Managing the production are Jim Berman '49, general manager, Frank T. Hulswit '49, production manager, and Richard E. Glenn '50, business manager.

Tickets will go on sale about March 1st; they will be priced from \$1.20 to \$2.40, tax included, and will be available to organizations in blocks.

Tech Debators Will Defend Capitalism Against Socialists

The M.I.T. Debating Society will entertain the World Socialist Party tomorrow afternoon in what promises to be one of the most attractive audience debates of the year.

The Socialist Party in an effort to bring its program before the country has previously engaged in similar debates with other schools. As with the previous debates, it is anticipated that the subject of this debate will evoke widespread interest—Resolved: "That Capitalism Has Outlived Its Usefulness to Society."

The Debating Society is well represented by Jim Jensen and Ed Perkins, two of the outstanding debaters in New England. Largely instrumental in establishing the Society's fine debating record of last year, they represented the Institute in the National Debating Tournament at West Point. Undeclared this year in three debates, they will be on hand to defend their record and Capitalism.

Professor John E. Burchard, Dean of the Humanities Department, will act as moderator, introducing the speakers, and conducting the question and answer period following the debate. An audience decision naming the winning debating team may be attempted.

The debate will be held in Room 10-250 at 5:00 p.m., Wednesday, January 12. Everyone is welcome.

WELLESLEY CHRISTENS AIR SHOW

Sitting on the wing of a Hellcat, the above members of the Wellesley Flying Club are from left to right: Lue Smith, Mary Ann Freng, Barbara Jane Freng, Patty Hopkins, Mary Toohy, Polly Pieper, and Nancy Helverson. They were entertained by the Tech Flying Club at their first air show Saturday.

Flying Club's First Air Show Called Success, As 300 Watch Air Maneuvers

An estimated three hundred people, representing virtually all the larger colleges in the area, according to Edward H. Jacobson '50, Operations Manager of the Tech Flying Club, watched a squadron of Corsairs in carrier maneuvers, and inspected a midget racer, a Corsair, and a Hellcat at Beverly Airport last Saturday, where the Tech Flying Club staged their first air show.

Charles E. Richborough '50 and Anthony J. Navoy '50 brought the Hellcat and Corsair in for inspection, while Charles O. Miller '49 landed his Corsair to direct the squadron maneuvers.

Thomas R. Cuthbert '50, President of the club, was very favorably impressed with the prestige

the club received in the papers and plans a bigger show for the future. He also mentions that anyone interested in the club can drop in to see the Ground School films and attend the meetings on Monday evenings at 5:00 and 7:00 p.m. in Room 20-B-011.

FSSP Meets With U.S. Govt. Officials Men From 8 Colleges Gather At Conference

Technology members of the Foreign Student Summer Project had an opportunity to meet many of the government officials which they have been corresponding with during a week-end conference held at the Institute.

Eight schools, with projects of a similar purpose as the FSSP, were represented at the meeting which was called to consider problems of the group. In order to help them solve these problems, representatives from various government agencies and also airline officials were in attendance.

Earl W. Eames, Jr., Technology student and chairman of the M.I.T. Foreign Student Summer Project, said that one of the most encouraging developments was a request by a Department of Justice representative, asking that the State Department keep the former informed of foreign students arriving in this country so that special consideration might be given them at the immigration office.

The need for orientation of American students participating in seminars abroad and foreign students coming to this country for study was stressed during the two-day conference. Dr. Paul Smith, U. S. Department of Education, stated that, "Of twenty-five thousand foreign students now in this country, only eight hundred have had any formal orientation."

Mr. Raymond Dennett, chairman of the World Peace Foundation, was chairman of the meeting, and commented that the two-day conference was "one of the best-organized meetings I have ever attended."

Faculty, Students May Fly Abroad At Reduced Fare

Possibility of forty Technology students and faculty flying to Europe next summer at 60% of the regular fare has been announced by Lloyd A. Haynes, '49, chairman of the NSA Committee at the Institute.

According to Haynes, Trans-Canadian Airlines have announced that the plane to be chartered by the local NSA is scheduled to leave June 12 and return on or about August 31. Points of departure and arrival of the special "MIT Plane" are not definite, although they are expected to be Montreal and London, respectively.

Haynes further indicated that information about this "amazing offer" was made to the NSA group at the Institute by the University

SUMMER TRIPS

All students planning to go to Europe this summer for study, work or travel, are requested to leave their names at the office of the NSA Committee in the basement of Walker Memorial Building within the next week. Shipping space is going to be extremely short again this summer and it is doubtful that late comers will have much choice in sailing dates. Ships sail from New York City to Le Havre, France, and it is hoped that the fares will again be \$140 each way.

Travel Company because of its close contact with the Foreign Student Summer Project, a subcommittee of NSA.

Cost of the round trip, about \$350, is very nearly the same amount charged for tourist class transportation aboard ship. Since the plane must be chartered within a few days in order to secure it, applications should be made by students and faculty immediately at the NSA office in the basement of Walker Memorial. Office hours are from 10:00 A.M. to 5:30 P.M.

30th Anniversary Celebrated By VI-A In Course's Annual

This year marks the thirtieth anniversary of VI-A, the cooperative course in Electrical Engineering. One of the first of its kind in the country, the course was inaugurated in 1918 by Professor Timble, who guided its development to its present form. In 1947, Professor Eugene W. Boehne was appointed administrative head on Professor Timble's retirement.

Commemoration of the anniversary will be the theme of this year's "Sparks," the VI-A annual, according to Phil Bagley '50, editor, and Larry Hague '48, general manager. The book will feature pictures and stories on VI-A alumni, students, and activities. It will be dedicated to Mr. H. B. Richmond, President of the General Radio Co., who has written a special article for the issue.

According to the staff, this year's "Sparks" will be the biggest and best copy ever published at the Institute. Options will be on sale from January 10 to 24 in Room 4-205.

Students from the class of '51 who are interested in course VI-A will be interviewed near the end of the Spring term.

Basketball Team Bows To Tufts Freshmen Annex Sixth Straight

Varsity Loses 66-48, Despite Late Splurge

A brief second-half outburst proved insufficient to the Tech hoopsters as they were overpowered by Tufts, 66-48, in Walker Gym last Friday evening. It was the sixth straight setback for the local quintet.

Amazing accuracy from the foul line by the visitors, coupled with a tight man-to-man defense which confined the home team's shooting to the outside, proved too much for Ted Heuchling's varsity.

With Al Perry, Earl Tryder, and Jim Mullaney leading the attack, the Jumbos ran up a 35-18 half-time lead. Then, as the second half opened, Tech caught fire.

A hook shot by Lou Morton was followed by successive goals by Honkalehto, Corrie, and McMillan. Before the surprised Jumbos could get their bearings, their lead had been cut to three points, at 38-35. However, at this point the tide turned once more.

After taking time-out the Jumbos began to pull away once more from a Beaver five which was rapidly tiring. When Jim Madden was forced to leave the game with a bleeding hand and Lou Morton was banished on personal fouls, the issue was settled beyond doubt.

(Continued on Page 3)

Nacey, Herdman Star As Frosh Win 47-36

Running its unbeaten string to six straight games, MIT's freshman basketball team downed the Tufts frosh, 47-36, last Friday evening.

Tech moved out in front at the outset of the contest and kept the lead all the way to the end. However, for three periods the Beavers were never able to pull away from an opponent which they obviously outclassed.

(Continued on Page 3)

OFFICIAL NOTICE! Registration Material—Spring Term 1949

Registration material for the Spring Term was given out last week.

Students who have not obtained their material should do so at once as follows:

ALL FIRST-YEAR STUDENTS who have not obtained their material in 5.01 Laboratory Section call at Room 4-258.

ALL OTHER STUDENTS call at the Information Office, Room 7-111.

Registration material for the Spring Term must be filled in and returned to Room 7-142 before 10:00 A.M., Monday, January 17.

ALL-AMERICAN

The ball is one of the A. A.'s best, and the soccer player is Jim Veras, one of the nation's best. Jim was named Saturday to the All-America squad chosen by the National Soccer Coaches Association.

Considered one of the best athletes in the history of the Institute, Jim captained the soccer team for the past two seasons. In 1947 he received All-America honorable mention in addition to various sectional All honors.

Looking for a scholarship? Your search is ended. The "Technology Dames," an organization of Professors' wives who run tea parties and the pinball concession in Walker, has announced the creation of a new scholarship, worth \$25 ... for the Westgate Nursery School.

Remember the Fido Issue of The Tech? Seems an Editor of ours went down to the printers to pick up last Friday's issue. One of the men working in the shop down there wanted to know if the reason for there being no issue during the Christmas week was due to the fact that 1300 students had been suspended for participation in the "Harvard Incident," and we had to find a new staff for the paper

The notoriety of a few of Tech's campus highlights has spread. A coed at Smith wanted to know if we had ever been to the "chicken wire room." It didn't occur to us at first to what she was referring then the light dawned ... Pritchett Lounge.

The story has been circulating of the time that Mr. Carlisle came up to a sedate looking gentleman working on a piece of braised beef in Walker. Mr. Carlisle asked him if he was enjoying the dinner, and without a moment's hesitation the gentleman took out his false teeth, laid them on the table and proceeded to pound them back to shape with a knife handle.

Some joker has been offering "guided tours" of the New Senior House at \$.50 per head, much to the dismay of the Dormitory Board. The Dorm board advises that these tours are neither "authorized or legal," and asks us not to "waste your money." Probably implying that they intend to offer the same deal, at \$.25 a person in the near future.

The Tuition-Rise-Fever is spreading. Cal-Tech has raised their tuition from \$500 to \$600. They don't have a wind tunnel!

According to New York fashion experts, the college man should now have in his wardrobe at least ... "cloth-of-gold sport shirts; brocaded silk pajamas; Picasso pink sweaters with plunging necklines, and polka dotted suspenders." It's been rumored that The Coop will be selling barrels next Fall. With the usual Coop refund.

Fraternity Findings

By JOE FLEMING and ED STRINGHAM

Last Saturday night the Phi Gamma rocked the Fenway with their annual Pledge Formal. The punch improved during the evening as did the spirits of the guests. Hal Reeves' band did an outstanding job of providing the dance incentive while bartenders Bob Peterson, social chairman, and Dan Test brewed and, as the evening went on, gradually strengthened the punch.

As a surprise addition to the entertainment, Brad Edgeston, Dave Rowe, and Burt Woodward gave out with a rapid paced impromptu jam session on the piano, clarinet, and drums respectively. The spacious and darkened second floor ballroom was the main gathering spot for the dancing guests but some took advantage of the less crowded floors of several other rooms.

Also last Saturday night the Chi Phi's held a large formal. The punch, brewed by Tom McLeer, seemed to be a combination of champagne, ginger ale, and sauterne. The dance started at nine and about one hundred couples danced until one to the music of Stan Harris' band.

After the band left, late stayers had a sing fest and the Chi Phi house rang far into the night with the strains of various Tech and fraternity songs. No plaster fell, however, and judging from the heavy eyelids, and dragging feet to be seen late Sunday afternoon, the dance was a big success.

Scabbard and Blade Will Hold Military Ball March 4

The annual Military Ball of the Technology Chapter of Scabbard and Blade is to be held in Morris Hall on Friday, March 4. According to John Brady, G, dance chairman, all students are welcome, either in formal or military dress, to this first formal of the Spring term.

Last year, a Pershing Rifles drill exhibition, in a military atmosphere of rifles and a searchlight, highlighted the entertainment of the evening.

Wood, Navy, SAE, Theta Chi, Pi Lams In Basketball Finals

Intramural basketball play has been completed, with the final standings in two leagues ending in deadlocks. League V was the scer of the closest race with three team Sigma Chi, Wood, and Agend. finishing the season with the identical record of six wins and or loss. Playoff games were played among the three teams with Agend beating Sigma Chi, by 5 points, Sigma Chi beating Wood by 18 points, and Wood beating Agend by 18 points.

Since the play-off games did not prove which team was superior, it was decided to award the championship to the team with the largest margin of points. This made Wood the league champ.

Scoring Honors Divided
Oddly enough the high scoring honors for the league are divided between two men neither of whom was on the victorious squad. They were shared by Howie Hendershot of Sigma Chi, and Danny Esakov of Agenda, both with a season's average of 12 points per game.

The League II race also resulted in a tie between Delta Kappa Epsilon and Navy, with Navy copping the playoff game by a score of 39-28. Hank Peacock of the Deke was the League's high scorer amassing an average of 16.5 points per game.

Pi Lams Win
In the other leagues the top teams remained undefeated throughout the season's play. Pi Lambda Phi took the League I title, while Sigma Alpha Epsilon and Theta Chi triumphed in Leagues III and I respectively. Each had a perfect record of 7-0.

Scoring honors were taken by Chuck Lockerby of Sigma Nu with a 14.5 point average, Tom Friederick of SAE, who averaged 15 points a game, and Ed Ort, of Theta Chi who averaged 13.

THE INSURANCE SCHEME

One of the most heated objections to the Senior Class's twenty-five year gift plan has grown out of the recent hike in tuition. There are few, if any, who can say that the tuition is not too high, but there is certainly nothing anyone can do about the situation at this time. The matter of tuition, however, brings up an important argument in favor of a class gift. No matter how you slice the income pie, student's tuition does not cover the cost of the education provided.

Were it not for the generosity of individual alumni and former graduating classes our tuition would be almost twice the present figure. Most of us will agree that Technology gives one of the finest educations in the country and that it is the contributions of the men who have graduated in previous years that make it possible to maintain this standard. Now that income taxes are so high and since there is no hope that they will ever be low enough to permit the large accumulations of wealth that built so many of the buildings now on the campus, the Institute will have to depend on the contributions of the average graduate more than ever to keep tuition rates from rising still further and to continue providing its educational opportunities.

Another big objection is that the contributions should not be solicited now or in the near future when student's and new alumni's expenses are highest and income lowest, but the fact is, assuming the desirability of a class gift, the proposed plan actually provides the most efficient and painless way for collecting money for the gift. Now is the only time when the questions and paper work requirements for each individual can be taken care of in a few minutes in the office, Room 2-125; the alternative is lengthy correspondence in the years to come. In the past, those classes that deferred the solicitations until after graduation failed almost invariably in achieving their goals while those that made the contacts before graduation were able to do much better.

The plan that the Senior Class Executive Committee has chosen is the cheapest for all concerned since the graduate receives the insurance at a rate that will not be equalled when he takes out more in later years to take care of his family. Veterans with National Service Life Insurance can sign over dividends from \$1,000 of their insurance. The school will get its money, the graduates their insurance, and the dividends will hardly be missed.

If the Class of '49 is like most of the other classes that have already graduated, its members will not have their full appreciation of their education in this "factory" until they have been out on a job for several years. By anticipating this now, the 25 year gift plan will be a success.

T.B. OR NOT T.B.

One thing that most activities at the Institute find out sooner or later is that it takes a nearly superhuman effort to make Techmen do anything besides study. Currently it is the Medical Service X-ray drive which is in difficulty. Theoretically at any rate, there should be no one attending the Institute who hasn't had a chest X-ray since September during his fall physical examination. But in spite of the faculty rule which provides for the suspension of any student who has not been examined, there are many who have not even been inside Homberg Infirmary this fall.

If this independent attitude on the part of many was of no concern to anyone but the individuals, we would take scant notice of their neglect to comply with the rule. But this matter is one of public health. If tuberculosis is to be wiped out, only such methods as mass X-rays can ferret out the disease. There is little inconvenience to the student; the processing only takes several minutes. We heartily approve of the provision barring students without chest X-rays from registering next term.

OUR NEW NAMEPLATE

If the ear we have been holding to the ground hears correctly, the nameplate that we initiated with the last issue of The Tech has met with the approval of our readers. Credit for the design goes to David A. Grossman, '50, and Professor Gyorgy Kepes of the Architecture Department.

Frosh Basketball

(Continued from Page 1)

Cliff Herdman and Hank Hohorst carried the offensive burden for Tech during the first half, which ended with the Engineers leading, 22-17.

During the final period the tempo of the game suddenly quickened, and the spectators were treated to 10 minutes of good and exciting basketball. Tufts put on a little drive of its own as the period opened, and pulled to within a point of the Beavers at 32-33. This seemed to awaken the Tech five,

because they immediately opened up with an offensive burst which produced seven consecutive points within a couple of minutes. The Engineers seemed to have finally solved the puzzle of the Tufts zone, and were able to penetrate for shots under the opposing basket.

Nacey, Herdman Excel

Mike Nacey played a tremendous second half for Tech. He was all over the court, plucking passes out of the air, fighting for rebounds, and getting his shots into the basket. Herdman played his best game of the season as he led the scorers with a total of 15 points.

Grapplers Defeated By Wesleyan Frosh Win For Third Victory

The scene: Rockwell Cage. On Top: Dick Lemmerman of Tech. On Bottom: Joe Bellubono of Wesleyan, about to be pinned.

Wesleyan University's rugged wrestling squad upset a fighting Tech team 18-12 in a meet held in Rockwell Cage on January 7. In the freshmen meet, Tech remained unbeaten with an impressive 27-5 win.

The Wesleyan grapplers got off to a fast start by taking the first two matches on decisions. Dave Findlay was Tech's first winner with a 6-2 decision, but Wesleyan's captain Art Stremmer, earned a 9-3

lead for his team by taking a decision over Tom Callahan.

Will Haggerty and Jack Dolph of Wesleyan fought to a 8-8 draw in the 150-pound class. Haggerty was only 7 seconds shy of winning the match for time on top. Tech's only pin came when Captain Dick Lemmerman downed Joe Bellubono in 1:04 of the third round.

The freshmen match was highlighted by pins by Hugh Robertson and Larry Foley. It was Foley's third straight pin.

Natators Drown Trinity 50-25; Frosh Also Win

Freshmen Place 1-2
In 3 Events; Kellom
Winner Of 2 Races

Coming back strong after losses to Harvard and Wesleyan, Tech's tankmen swamped Trinity College 50-25 in a dual meet held in the Trinity pool last Saturday.

The day was made doubly successful for the Tech swimmers as the frosh squad outclassed Brookline High 46-20 in a meet held at the Alumni pool.

Kellom Wins 2

Dave Kellom sparked the varsity with victories in the 220 and 440-yard free-style races, and also was high point man for Tech. Dick Pitler and Bob Pelletier also counted heavily for Tech, each man winning an individual event and swimming on Tech's winning medley relay team.

Trinity's double winner was Costa, who won both the 50 and 100-yard free-style races. His two firsts were the only ones taken by Trinity in the meet.

Tech Freshmen Strong

There were no double winners in the freshmen meet but Tech showed plenty of strength in three events by placing first and second in each. Tom Daly's disqualification in the 100-yard free-style race prevented the frosh squad from taking both first and second in still another event.

Summary

300-yard Medley Relay—M.I.T. (Pitler, Pelletier, Conlin), 3:08.8. 220-yard Free-Style—1st, Kellom; 2nd, Cutting (T); 3rd, Huribut; Time: 2:29.0. 50-yard Free-Style—1st, Costa (T); 2nd, Edgar; 3rd, Dineen; Time: 24.4. Diving—1st, Lehmann; 2nd, Bollermann (T); 3rd Hart; Points: 73.7. 100-yard Free-Style—1st, Costa (T); 2nd, Edgar; 3rd, Cutting (T); Time: 55.5. 150-yard Backstroke—1st, Pitler; 2nd, Smith (T); 3rd, Jones; Time: 1:47.8. 200-yard Breast-Stroke—1st, Pelletier; 2nd, Kirshner (T); 3rd, Brewer (T); Time: 2:36.8. 440-yard Free-Style—1st, Kellom; 2nd, Huribut; 3rd, Parker (T); Time: 5:33.5. 400-yard Relay—M.I.T. (Loomis, Van Mook, Callahan, Conlin); Time: 3:59.6.

Fencers Beat BU For 2nd Straight

On Saturday the varsity swordsmen engaged in their second meet of the '48-'49 season, and for the second time came through with a decisive victory. Having beaten Clark University on Dec. 18 by 19-8, the fencers this time beat B.U. by the handy score of 20-7.

The powerful M.I.T. foils team met little resistance from B.U. Captain Abbate, Tony Mirti, and Frank Kellogg, together with substitutes Sittler and Moroney, combined to win eight out of nine bouts.

The epee men had a harder time in beating their opponents; Tito Luzuriaga, Charlie Kurz, and Fred Rayfield, plus substitutes Zesiger and Barnet, were hard-pressed in turning in a 5-4 decision.

Tau Beta Pi Sponsors Dance

Tufts, Northeastern, Worcester Chapters Will Be Represented

Beta of Massachusetts, the Institute chapter of Tau Beta Pi, has invited the three other local chapters of the Boston Metropolitan Council to its traditional, pre-examination barn dance.

Bud Savage and his Orchestra will provide music for dancing from 8:00 to 12:00 p.m. in the Larz Anderson Barn in Brookline next Saturday, January 15, 1949.

Tufts College, Northeastern University, and Worcester Polytechnic Institute will be represented. Lester W. Smith, '50, Chairman of the Social Activities Committee, suggests that the dance is a good opportunity for all student and alumni members to have a gay time and also meet members of these chapters.

FOREIGN STUDENTS

The National Student Association Committee at Technology is sponsoring several tours to points of interest for foreign students. A trip to the TVA area to study dams, power, and irrigation is planned for the spring vacation. Tentative arrangements have also been made for a tour of Oak Ridge.

All interested foreign students can get information at the NSA office in Walker Memorial. The NSA would like to make transportation arrangements with students owning cars, who will be driving south.

How Romantic can a love song be?

VAUGHN MONROE has the answer in "MY OWN TRUE LOVE"

New RCA Victor Release

Here's dream-stuff that says, "Gather 'round and let's play that again!" Smooth-singing Vaughn Monroe and his Moon Maids make love really talk in this honey of a new recording.

How MILD can a cigarette be?

Make the CAMEL 30-DAY TEST and see!

In a recent coast to coast test of hundreds of people who smoked only Camels for 30 days—an average of one to two packs a day—noted throat specialists, after making weekly examinations, reported

NOT ONE SINGLE CASE OF THROAT IRRITATION

due to smoking
Camels

Money-Back Guarantee: Smoke Camels and test them in your own "T-Zone." T for taste, T for throat. If, at any time, you are not convinced that Camels are the mildest cigarette you ever smoked, return the package with the unused Camels and we will refund its full purchase price, plus postage. (Signed) R. J. Reynolds Tobacco Co., Winston-Salem, N. C.

THAT 30-DAY MILDNESS TEST I MADE SURE CONVINCED ME—NOW IT'S CAMELS AND ONLY CAMELS FOR ME!

I'M A CAMEL SMOKER FROM WAY BACK. I KNOW CAMELS ARE MILD. AND CAMELS SURE HAVE THE FLAVOR!

Vaughn Monroe talks it over with one of his lovely Moon Maids, June Hiatt. Hear them on the Camel Caravan...Saturday nights...CBS.
